

ShopSphere Cancellation Policy

Fictional knowledge-base document created for the ShopSphere AI Data Analyst/RAG academic project. This document is synthetic and should not be treated as a real company policy.

1. Purpose

This policy explains the general process for cancelling ShopSphere subscriptions and the conditions that may apply to different contract lengths.

2. Monthly Contracts

Customers on Monthly contracts may request cancellation through the account portal or customer support. Cancellation normally affects future billing and does not automatically reverse charges that have already been processed.

3. Quarterly Contracts

Customers on Quarterly contracts should review the applicable contract terms before cancellation. Depending on the agreement, cancellation may take effect at the end of the current billing period.

4. Annual Contracts

Annual subscriptions are governed by the annual contract terms. Customers requesting early termination should contact support and review any applicable conditions before submitting the request.

5. Cancellation Process

Customers should provide their account information and requested cancellation date. ShopSphere may verify account ownership before processing the request.

6. Failed or Delayed Payments

A payment delay does not automatically constitute a cancellation request. Customers should contact support if they wish to cancel after experiencing a billing issue.

7. Retention Contact

For selected cancellation requests, ShopSphere may provide information about available plan changes or retention options. Customers are not required to accept a retention offer.
