

ShopSphere Refund Policy

Fictional knowledge-base document created for the ShopSphere AI Data Analyst/RAG academic project. This document is synthetic and should not be treated as a real company policy.

1. Overview

This policy describes the general process for requesting refunds for eligible purchases and subscription charges.

2. Eligibility

Refund eligibility depends on the product, transaction type, applicable offer, and circumstances of the request. Some promotional or completed transactions may be subject to different conditions.

3. Request Process

Customers should submit a refund request through the authorized support channel and provide the order or transaction reference. The support team may request additional information to verify the transaction.

4. Review

Refund requests are reviewed against the applicable purchase and subscription terms. Submission of a request does not guarantee approval.

5. Approved Refunds

When a refund is approved, the amount and processing method depend on the original transaction and payment provider. Processing time may vary.

6. Subscription Charges

Customers requesting a refund of a subscription charge should provide the billing date and account information. Cancellation and refund are separate processes unless the applicable terms state otherwise.

7. Disputes

Customers who disagree with a refund decision may request a review through customer support and provide relevant evidence.
